Subject: Discover MyPath — A Career Resource for Students, Job Seekers & Veterans

Hi everyone,

Our organization is a proud partner of MyPath, a national career exploration resource that helps high school students, college students, career changers, and veterans learn about opportunities in risk management and insurance.

MyPath offers free, easy-to-use resources, including blog articles, videos, job insights, and success stories to help others discover the roles, skills, and career paths that fit their strengths.

If you know someone exploring career options or considering a new direction, here's a great place to start: www.insuremypath.org

Feel free to share this resource with students, job seekers, colleagues, or community partners who might benefit.

Thanks for helping us support the future of the field.
